Interactive Elements

The Key Plan.
The first page of the Masterplan is the Key Plan. This is the page you will return to navigate between parks. The Key Plan is a map of The City of Springville with buttons identifying park locations.

Park Location Buttons.
When navigating in the Key Plan you can roll over a Park location button to see both the name of the park and park amenities. To discover more about the park click on the button to advance to the park page. Roll over the neighborhood park button below to see the components of a typical parks button.

Park Navigation Buttons.
Once you have selected a park by clicking the button, click on the tabs at the bottom of the page to navigate between pages. The tabs look like the ones below.

Park Amenity Icons.
Once you navigate to a design page you will see an illustrative plan of a park and a series of square black and white icons as shown below. These are park amenity icons and will show the locations of park features when you roll your mouse over them.
