

## RESIDENTIAL PUBLIC WORKS & SWPPP INSPECTION CARD

### ITEMS TO BE INSPECTED

- 3" curb cut back on the park strip from property line must be installed (this was a requirement during construction).
- Portable toilet must be removed from site.
- Concrete wash out area must be removed and/or cleaned up.
- Sediment bags in the gutter must be removed.
- Dumpster and garbage on site (also on neighboring lots) must be removed.
- Street must be swept of all dirt, rock and/or debris.
- Sidewalk, curb & gutter — park strip must be clean of debris, mud, and snow/ice.
- Cracked sidewalk must be replaced.
- Large chips in sidewalk and curb & gutter must be patched.
- Water meter must be set.
- Pressurized irrigation service box must be up to grade and in good repair.
- It is strongly recommended putting a sleeve under the driveway for pressurized irrigation.

When the above items have been completed and are ready to be inspected, please contact the Building and Inspections department at **(801) 491-7861** or **buildingpermits@springville.org** to schedule a Public Works and/or a SWPPP inspection.

Your completion and performance bonds will be released after passing the final building inspection, the public works and SWPPP inspections.

A \$40 fee will be charged for re-inspections.
