

GRAMA

I would like to request records such as building plans. Can you give them to me?

If you want to make any kind of records request, you need to fill out a GRAMA request. The link to do that is here: <https://www.springville.org/grama-request/>

GRAMA requests can take up to 10 business days. We may not always have the record you seek because of State mandated retention schedules.

Some records, such as building plans, are proprietary and copies of them cannot be given to the requestor. If that is the case, and we have the plan, you may view it on our computer here at the office by appointment.
