

## Notice to Springville Utility Customers

State law requires that the City provide an annual disclosure of money transferred from an enterprise fund (typically a utility service) to any other fund of the City. Springville’s Fiscal Year 2025 Tentative Budget includes a set percentage transfer of 6.5 percent of operating revenues from each of the utility enterprise funds (Water, Sewer, Electric, Storm Drain, and Solid Waste) to the City’s General Fund. The transfer amount also includes the value of utilities provided to the general fund at no charge. Additionally, the budget includes a transfer of two percent of the budget of Enterprise Fund capital projects to support the “Percentage for the Arts” program, which promotes public art in Springville. Transfers are amounts that cannot be defined as reasonable allocations of costs between funds and are not typically repaid.

As has been its practice for many years, the City of Springville has budgeted for the transfer of money from its utility enterprise funds to the general fund as a return on investment to its shareholders, the Springville City rate payers. These funds are used each year to help cover costs of important city services like police, fire, library, senior center, parks, recreation and other city functions. The utility transfer helps keep property taxes low in Springville.

Separate from these operating transfers, the enterprise funds pay an administrative charge to cover the costs of centralized services provided by the general fund to the enterprise funds. These services include but are not limited to utility billing, accounting, payroll, legal, human resources, and engineering. These administrative fees are calculated by the Finance Department and are considered to be reasonable allocations of costs between funds.

The following are Fiscal Year 2025 transfers and administrative fees (budgeted not to exceed):

Fund	FY 2025 Expense Budget	Transfer To	Transfer Amount	% of Expense Budget	Admin. Fees	% of Budget
