

Springville Public Safety Training
Block Captains' Duties

How I Prefer to Train the Families in My Block

1. Meet with my families individually and teach them:
 - A. How to shut off their utilities.
 - B. Give them a copy of the Preparedness Test.
 - C. How to signal for help after a disaster.
 - D. Their responsibility to check on their neighbors.*

2. Hold a Block Party and teach:
 - A. How to shut off their utilities.
 - B. Give them a copy of the Preparedness Test.
 - C. How to signal for help after a disaster.
 - D. Their responsibility to check on their neighbors.*

3. In cooperation with the other Block Captains in my zone (ward)
Hold an annual meeting (a potluck breakfast works well) to
teach:
 - A. Who the Block Captains are for each block along with a
Map showing the various blocks.
 - B. How to shut off utilities.
 - C. Distribute a copy of the Preparedness Test to each family.
 - D. Their responsibility to check on their neighbors.*

Please choose one of the above and check the box next to your choice.
If you have already completed an equivalent training for the families in
your block give yourself a Gold Star.

* Teaching the families in your block to take care of each other is the
most fundamental part of emergency preparedness. You may not be
there following a disaster.
