## HEAT Program

The Home Energy Assistance Target Program, known as HEAT, is open to applicants through April 30, 2018. This program provides a lump sum benefit to assist individuals and families who pay higher energy costs during the winter season. Eligibility and amount of benefit is based on income, household size and composition. Applications are accepted by appointment, by mail or online. Contact the HEAT Program today for more information at 801-229-3855, or [mountainland.org/heat](http://mountainland.org/heat).

## Volunteers for Boards and Commissions Needed

Due to the variety and numbers of services provided by Springville City, the City Council has chosen to establish volunteer boards, commissions, and committees. The City Council uses these groups in an advisory role as Springville has grown and expanded.

The primary role of City Boards, Commissions and Committees is to provide increased public input and citizen participation in City government.

If you would like to contribute your time and expertise to Springville City and volunteer for a Board or commission please go to [Boards and Commissions Volunteer Application](http://springville.org) at [springville.org](http://springville.org) and complete an application today. For a list of [Boards and Commissions](http://springville.org) go to [springville.org](http://springville.org).

## Old Community Pool Closing in April

Springville City and the Recreation Department are very excited for the new Clyde Recreation Center (CRC) to open in a few months. The current Community Pool will shut its doors to the public after Saturday, April 14, 2018. We will be using the pool exclusively for staff trainings until we move into the new facility. The anticipated date of substantial completion for the CRC is May 4, 2018. We will be moving in for a couple of weeks and expect to be open to the public on May 28, 2018.

## Mayor's Message

"We are very fortunate here in Springville for the foresight of previous city government leaders who implemented good policies that have benefitted our citizens. We are in the process of building the new Clyde Recreation Center with some great aquatic features. We have some of the best parks in the state including the award winning Bartholomew Park and Reservoir, the city park including the splash pad, and the community parks with their numerous athletic fields and features. We need to continue to plan not only for future parks and recreation, but also for our infrastructure needs. Overall, we have an amazing city with so many great amenities including the Springville Art Museum, Hobbie Creek Golf Course, the city library, and our canyon park facilities to mention a few. It is not a

surprise that in 2017, the website Wallethub found Springville to be the 3rd best city in the ENTIRE COUNTRY to start a new business in. There were 1,261 cities ranked for this survey.

Despite all of the great things we enjoy here in Springville, our greatest resource by far is our citizens. Springville is a community of volunteers who serve and support our youth programs, our city functions, and our committees and boards. Springville is a wonderful community and it is all thanks to the people who make it the wonderful place it is. I feel very fortunate to represent this great city as its Mayor."
