

## CRC TINY TOT SPORTS

Tiny Tot Sports is available at the Clyde Recreation Center on Tue & Thu at 9:30AM or 10:30AM. Tiny Tot Sports prepares children ages 3 - Pre-K 5 yr olds for organized sports in a fun, non-competitive environment. Children will be introduced to a variety of basic sports skills as well as movement education through basic tumbling skills and hand-eye coordination skills. Sign up at the CRC.

## PI TURN OFF DATE

The Pressurized Irrigation System in the West Fields (west of 400 West) will be turned off Friday, October 28th. Please make sure your sprinkling system is drained by November 3rd to prevent freezing pipes. We also recommend that you remove the filter so it doesn't freeze. If you have questions, please call Public Works at 801-491-2780.

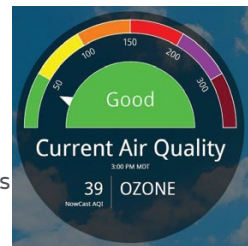

## WRESTLING & BASKETBALL

October is the month to register for youth wrestling and youth basketball. Wrestling is for ages 4 through 6th grade (must be 4 by October 1). Girls and boys in 3rd – 8th grades have open registration for basketball all month between October 1st and 31st. Session 2 of the Pre-K through 2nd grade registration is open October 15 through November 16. Adult men's basketball registration is open October 1 to November 1. Additional information for all Springville Recreation activities and events can be found at [springville.org/recreation](http://springville.org/recreation).

## AIR QUALITY

The Recreation Department continues to check the air quality on several websites such as Utah Department of Environmental Quality, KSL Air Quality Network, and AirNow.gov. The winds can change and the air can clear within a few minutes of making a determination to cancel games. Staff tends not to cancel games unless air quality reaches orange or higher on the scale. We realize that there is no single decision that will accommodate the needs of every participant. The option to keep children home is always at the parents' discretion and coaches should respect and honor a parent's decision.

## HALLOWEEN AT THE SENIOR CENTER

Actors from the Springville Playhouse's production of Jekyll & Hyde will be performing select musical numbers in a free performance on Halloween night. The performance will take place on Wednesday, October 31st at 6:00 p.m. and will be held at 65 East 200 South (the Springville Senior Center). The event is FREE. If you missed seeing Jekyll & Hyde, don't miss out on this special performance! For more information, please call 801-489-8738.

## HONOR OUR VETERANS

Please help honor our community's veterans at this special event. Scout Troop and Pack 1456 will perform a flag ceremony followed by a barbershop quartet singing patriotic and enjoyable songs. Veterans will be recognized, followed by refreshments. The free event will take place on Thursday, November 1st at 6:00 p.m. at the Springville Senior Center - 65 East 200 South.

October 2018

MAYOR RICHARD J CHILD

Trick or Treat on Main Street 3:00 pm to 5:00 pm on Halloween afternoon

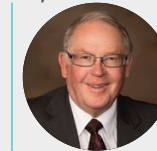

## STORM DRAIN WATCH

Every time it rains, storm water flows over driveways, lawns, and sidewalks, picking up debris, chemicals, dirt, and other pollutants. Storm water flows directly to our lake, creeks, and wetlands. Polluted runoff is the greatest threat to clean water. By practicing healthy household habits, homeowners can keep common pollutants like pesticides, pet waste, grass clippings, and automotive fluids off the ground and out of storm water. Adopt these healthy household habits and help protect our lake, creeks, and wetlands. Remember to share the habits with your neighbors!

## MAYOR'S MESSAGE

Autumn is always a busy time and this year is no exception. The days are getting shorter but this year it has stayed hot and "DRY". I want to take this opportunity to express my thanks to the great people we have in our fire and police departments. They have been called on to help our neighbors to the south while still keeping us safe.

Because of good planning and by implementing our Citizen Alert Program for our residents, we were able to quickly get the word out to the community about possible evacuation plans due to the Pole Creek Fire. With just a few hours of notice, we were able to fill the high school auditorium and hold an informational meeting about updates on the fire as well as evacuation protocols. I hope that by the time this message is

published, the fire will have been put out or at least significantly contained to pose less of a threat.

The city is busy planning for and excited about upcoming fall activities, sports, and events. Halloween is just around the corner and the Chamber of Commerce will be hosting Safe Halloween on the 31st where families are invited to join us for Main Street trick-or-treating and other fun activities.

I would also like to thank the Parks Department for all the great work they do. Despite the dry conditions, they have done great keeping our parks green and the landscapes and plants well maintained. Now that winter is on the way, they will still be busy preparing for colder weather as well as getting the Christmas lights and decorations ready for the city.

—Mayor Richard J. Child

## SPRINGVILLE BUILDING DIVISION

Did you know your building division processes and inspects almost 500 projects each year? This includes projects from water heater replacements, furnaces, porches/deck, sheds, retaining walls, basements, solar installs, single family residences to the biggest commercial/ industrial projects within our community. Our staff are certified nationally and licensed through the State of Utah so we can handle any project. We performed over 5,000 inspections and reviewed over 300 plans in the calendar year 2017.

Our primary function is to provide a service that creates a safe built environment. This ensures the safety of the citizens and patrons of the community. Let us help you on your next project. We enjoy facilitating the process of construction on all aspects. If you have any questions

for us please don't hesitate to call (801)489-2704 to talk to your building

division professionals today. We have several informational brochures on our website to aid you in the permitting process. We have sample drawings of decks, covered patios, sheds and more.

State law requires that all new construction and most remodel work requires a permit and inspection. The building division has working knowledge and experience in the construction trades. We are certified in building, electrical, plumbing, heating and air conditioning. We are sometimes called the "jack of all trades" due to the extensive training and testing required to become a licensed combination inspector.

Through the permitting process we can ensure that all construction meets a minimum standard of safety and sustainability. We have codes that ensure peace of mind when you make the big investment of purchasing a home that it will be safe and durable. We also inspect many aspects of commercial buildings to ensure safety while out doing 'business as usual.' Commercial buildings have extra requirements due to the number of people that could be in a building at any one time. Such as the number of exits in a store to allow the safe exit during a fire or other emergency.

State law requires a period of due diligence on all property purchases so that one can research if there are any problems or concerns with a property before you sign the bottom line. Our department manages thousands of records of past permits, inspections and owners of properties for this purpose. This information is readily available through the GRAMA records request program. We can also answer most questions over the phone while looking up this information on our data base.

If you wanted to know when your building or by whom your building was constructed we would likely have that information for you. Our staff is available Monday thru Friday from 8 am to 5 pm except during major holidays.

See anything of danger?

## A GREAT HOLIDAY TRIP STARTS WITH UPDATED PASSPORTS

Christmas is right around the corner and some families plan international travel during the holiday vacation. Some families surprise the kids with a cruise or a trip to a foreign land. If so, do you have updated passports for the entire family? Routine turnaround for a passport is 6 weeks. Expedited turnaround costs \$60 extra per passport. It pays to plan ahead. Come into the Springville City Administration Department, Monday through Friday from 9 am to 4 pm and start the process ahead of time. The U.S State Department requires a check or money order attached to each application, so don't forget your checkbook. Some other items required include:

- parent's need a current driver's license
- original copy of the child's birth certificate
- both parents listed on the birth certificate if applying for a child

Springville City collects a \$35 application acceptance fee that can be paid with check, cash or card. We also offer passport photos for \$13 per person. Call (801) 489-2700 for further details.

## SPRINGVILLE CITY PLAYGROUNDS

There are seventeen Springville City parks that have playground equipment. All playground equipment has been constructed by a reputable manufacturer and conforms to all National Recreation and Parks Association (NRPA) regulations. Playground structures will either be designed to accommodate ages 2 -12 or a separate "tot lot" will be provided. The total value of playgrounds and soft fall material currently owned by the City is \$1.9 million.

Some of the Buildings and Grounds employees have completed the Certified Playground Safety Inspector (CPSI) course which helps them properly complete the required monthly safety inspection documents. Weekly inspections are also expected by Buildings and Grounds staff and we are currently in the process of improving these inspections to provide an elevated service and product to the residents and park patrons. The CPSI certification program provides the most comprehensive and up-to-date training on playground safety issues including hazard identification, equipment specifications, surfacing requirements and risk management methods. We are making this course available to all staff members responsible for parks maintenance.

In FY2018 a playground capital project was completed where we installed equipment once again at Bird Park. It will serve the local residents as well as park patrons because Bird Park is used heavily by residents attending softball, baseball, and football sporting events.

A condition assessment has now been completed for all playground equipment and we will plan replacements accordingly and as budget allows. The Buildings and Grounds department looks forward to continuously managing the playground equipment program so we can provide a fun, safe, and enjoyable amenity for the mothers, fathers, and children of the Springville City community.

## IN CASE OF EMERGENCY: WHAT INFORMATION WILL YOU NEED?

We all know about 72 hour kits that should include essential food, water and supplies. It's also vital to have a communication plan so every family member knows how to reach one another after a disaster. The third piece of your disaster plan should be preparing the documents that help you put your life back together after an emergency.

The Emergency File is a place to store critical information that will make it easier to recover in the event of a disaster. Information can be your greatest asset in an emergency. Your emergency file needs to contain vital information that you would need in a variety of emergency situations. Contacts, health and insurance information, and other critical records can help you react quickly in an emergency. What belongs in the Emergency File? Think of what you would need to recover from a disaster. It's important to have information about:

- Bank accounts
- Investment accounts
- Insurance policies
- Homeowner's insurance policies
- Social security numbers
- Marriage and birth certificates
- Personal property

You are encouraged to maintain a written and photographic inventory of your possessions, including model and serial numbers, so you can estimate the value of your property for insurance or tax purposes in the event of damage or loss. Irreplaceable keepsakes and photographs should be stored in a fire safe box. Consider sending copies of vital records to an out of town friend or relative as an extra precaution.

In an emergency, you need to be able to get your emergency file as quickly as possible. Make sure all household members know where the Emergency File is kept. Ideally, this file should be kept on a designated "grab and go" location near an exit. Because it contains all of your family's critical personal information, it should be protected against identity theft. Keep the emergency file in a locked, portable fire-safe. Carry the key on your key chain. When a plan is in place for the unexpected, you can feel more secure and confident that your recovery time after an emergency will be shortened.
