

Mayor's Recognition Award 2018

Newly sworn in Mayor Rick Child gave out his first Mayor's Recognition Awards at January's City Council Meeting. The Mayor and City Council recognized two Springville Junior High students who are dedicated to excellence and service. Jocelyn Nolasco is in seventh grade. She was nominated by her teacher Emily Edman. Ms. Edman shared that Jocelyn goes up to the Salt Lake Homeless Shelter on a regular basis to help provide home cooked meals to the residents. Their family does this at their own expense. Jocelyn is often seen helping a neighbor clean their yard or home. It is Jocelyn's goal to help make other's lives a little better with less hunger, cold or suffering. Jocelyn's parents are Eva Aguayo and Javier Nolasco.

Michelle Mumford is a ninth grader and was nominated by her teacher Katie Reese. Ms. Reese writes that Michelle is a good example, a true friend, a hard worker, a skilled leader and an exceptional student at all times. She quietly goes about pursuing excellence without any arrogance or self-promotion. Michelle is the daughter of Sara and Blake Mumford.

Springville City is honored to recognize the wonderful youth in the community. Nominate a student today at springville.org/mayoraward

Cemetery Clean Up

Springville City and Evergreen Cemetery personnel will begin spring clean-up on Thursday, March 1st. Please remove decorations you have placed on graves by Wednesday, February 28th or they may be removed and disposed of by cemetery personnel.

CERT Classes Begin

CERT (Community Emergency Response Team) classes will be offered again, starting Thursday, February 15 at 7:00 pm. The classes will last about two and a half hours each night and are being taught in the training room on the north side of the Fire Station.(75 West Center St.) The cost is \$25 per person or \$40 for a couple.

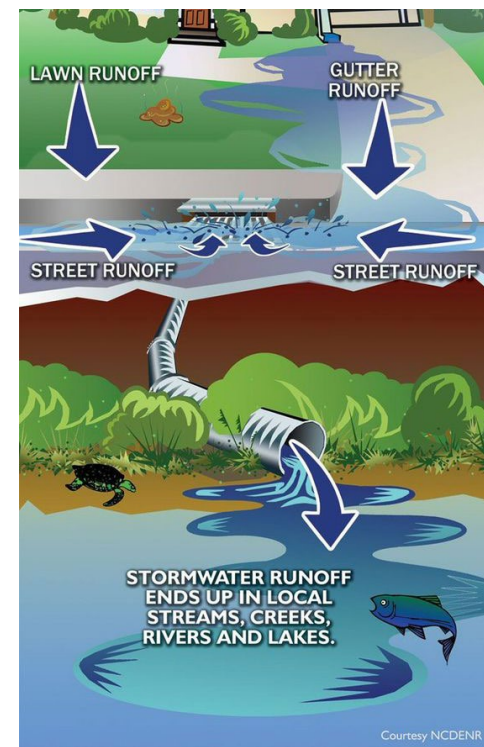

For that \$25 you will receive a manual, a helmet and a vest, various handouts and eight weeks of the finest hands-on training in how to take care of yourself and your neighbors. Topics include first aid, safe search and rescue practices, fire suppression, how to shelter in place, team organization and leadership, and how to handle the psychology of disaster situations. The final class will be a disaster simulation that will give all participants an opportunity to try their skills in responding to a realistic disaster situation.

Preregistration is not required, but it helps us to have an idea how many to plan for. Send an email to palmerhq@q.com for further information. Payment is not required until the night of the first class. It is serious training, but lots of fun! Meet some new friends and gain confidence to take care of yourself and your family. Martin Palmer—CERT Specialist (801-489-5328) or (801-368-8169)

Old Pool Closing

Your Springville Community Pool will be closing it's doors to the public on Friday, April 13, in preparation for the transition to the Clyde Recreation Center. Do you have your Clyde Recreation Center membership? Avoid lines during the grand opening and register for a membership now. Look out for updates on Facebook @ [springvillecrc](https://www.facebook.com/springvillecrc).

Winter Tips for Clean Water

De-icers lower the melting point of ice to help remove ice and snow from pavement. Sodium chloride (rock salt) is the most common product because it's effective and cheap. However, it is highly corrosive and ecologically damaging. Some de-icers are significant sources of phosphorous. Here are some ways to help keep our water supply cleaner:

- Be sure to keep de-icers in a covered area to prevent runoff to the storm system and contamination of ground water.
- Always apply de-icing products according to the manufacturer's instructions.
- Using the old-fashioned approach of a shovel means eliminating ice and snow without harmful chemicals and with the added benefit of physical exercise.

Why Does It Matter? Polluted water that enters your storm drain (the grate in the street curb that collects water runoff) does not get treated, and instead flows directly into local water bodies where it can harm aquatic life and habitats, contaminate drinking water supplies and recreational waterways, and lessen aesthetic value. For more information, contact 801-851-PURE (7873) utahcounty.gov/Dept/PubWrks

Springville CITY SOURCE

February 2018

Mayor: Richard J. Child

Council Members:

Christopher Creer
Craig Jensen
Jason Miller
Brett Nelson
Mike Snelson

Brett Nelson was sworn in as a councilmember after he was selected to fill the spot left vacant when Rick Child was elected mayor. Brett is married to Renee Goodrich Nelson, and they have four children and three grandchildren.

Mayor's Message

Springville showcased some of it's amazing citizens who turned out to apply for the vacant council seat. All of the candidates had exceptional qualifications and any one of them would have made a great member of our council. I would like to congratulate Brett Nelson who ultimately won the council position with a unanimous vote of the council. I look forward to working with Brett and the rest of the council as we serve the City.

We are continuing to see growth in our City with the progression of several new businesses on Fourth South and the Clyde Recreation Center is coming along nicely. The building is progressing with some amazing features and design elements. I will continue to visit the project on a weekly basis to monitor the progress and make sure things are running smoothly.

As we have all noticed, winter has come with very little snow in our mountains. It is anticipated that

if this pattern holds, our snow-pack will result in limited water resources. As citizens, we should start to think about how we can be conservative with our water needs.

Springville is a great community and we value the input of our citizens and employees. If you have a questions, concern or comment, please feel free to join us during our council meetings on the first and third Tuesdays of every month.

Mayor Richard J. Child

46th Annual Utah All-State High School Art Show

With a grant from the State of Utah our Springville Museum of Art will be hosting the 46th Annual Utah All-State High School Art Show continues through March 23, 2018. Students from over a hundred Utah public and private high schools in grades 11 and 12 submit nearly 900 works and approximately 300 are exhibited.

Over 10,000 students and patrons visited the Museum to see these incredible works each year. Utah's Congressional Districts select award winners representing their district from the exhibition each year. The first place award winning works will hang for one year in Washington D.C. Additionally, some award winners will be invited to attend a special day of recognition at the Utah State Capitol Building. This exhibition provides students with an opportunity to sell their artwork. For more information, go to smofa.org/46th-annual-utah-all-state-high-school-art-show
