

Chris Sorensen 2 Year Council Seat Candidate

I have lived in Springville most of my life. I retired as Superintendent of Nebo School District in 2010. Karen and I have three married children and 10 grandchildren. I've previously served three terms on the City Council. I have appreciation and respect for the employees of Springville that work long and hard providing the services and opportunities that contribute to the quality of life we enjoy living in Springville.

In Springville there is a statue by Scott Myers called *Sixty Years in the Saddle*. It features a rugged cowboy sitting on his horse headed one direction, while turned, glancing back to where he has come from. This symbolic pose sums up my desire to serve. Like the cowboy we need to continually be moving forward. We want Springville to be prepared for a bright future.

At the same time, we need to be respectful of the traditions, values, sacrifices, and people that are the history and heritage of our wonderful city. **We cannot lose our identity.** I invite you to take a look at this statue as you drive down Main Street; hopefully it will affirm your positive perceptions of living the good life into the future of Springville.
