

Craig Jensen 4 Year Council Seat Candidate

I'd be honored to give back!

As a lifetime resident, father, and volunteer in Springville, I am running for City Council for a 2nd term because I want to keep Springville great for our current residents and future generations.

I bring experience from a successful Career in Management and Business Development to the council. My proven problem-solving skills will aid the council in making solid decisions for our community's future. My efforts and experience with the youth and younger generations bring insight to our city's decision-making process. I would be grateful for the opportunity to continue to "give back" to the community where I was brought up and where my wife and I have raised our family.

Key Commitments:

- Maintain and improve our infrastructure plan to preserve and uphold public safety, services and assets at an affordable cost.
- Stimulate business growth and social development by vitalizing key areas of our city.
- Strengthen our neighborhoods through appropriate land use.
- Focus on family needs! - Our family friendly community in Springville has led to a robust and healthy city - Lets keep it that way 😊
- My Strength is my tenacity to "Get it Done!" I am results oriented.
