

## **Dale Watson 4 Year Council Seat Candidate**

Many of you may recognize my name as I was elected by you to be your GOP Caucus Delegate in 2016 in which I supported Donald Trump. I am still serving as your delegate. I moved to Springville 15 years ago and I moved from a planned community ... meaning that when the first home was built there, there was a map of the city of 75,000 homes, with streets, parks, and shopping centers that would be built in the future. I love Springville and I believe it has a bright future. That future should attract people from all over who want to shop here, play here, and live here. That means beautifying, updating, and building which will attract money from outside Springville. The current mayor and board are excellent servants of the city. Our problems with 1400 N and the added traffic on 4<sup>th</sup> South are being addressed. Springville has a great opportunity to approve something very special to replace Allen's Market. We have opportunities to create more foot traffic on our Main Street, as in improving the Springville Theater. We spend millions for a Rec Center (I'm a member) but little to update our "Downtown HWY 89 Springville". Like a planned community, our Springville Board needs to be forward thinking with a vision that makes people say, "Hey, did you see what's going on in Springville?"

I'm Dale Watson. I'm 71 yrs. old and retired. I have three married children and twelve grandchildren. My background is in Real estate, Sales, and Customer Service. I would appreciate your vote.
