

Hunter Huffman - Municipal Primary Election City Council Candidate 2023

My wife and I moved to Springville with our young family landing in the infamous Brookside Neighborhood. Since then our family and love for our community has grown here in Springville. Whether it's catching up with people at the Rec or seeing friendly faces at Ream's, we are happy and thriving thanks to Springville and our neighbors.

With years of experience in Traditional Architecture, Planning, and Urban Design, I provide experience, a focus on family-centered values, and accountability to the inevitable growth Springville is facing. With a desire to stay in Springville, my love for family serves as the foundation for my dedication to creating the best possible environment for other families in our community. I try to have an empathetic approach and ability to connect with others, to be able to listen to the concerns of others, and to develop practical solutions that will have a lasting, positive impact.

As a member of City Council, I will focus on supporting local businesses, encouraging entrepreneurship, and promoting sustainable economic development. With my dedication, professional expertise, and passion for creating vibrant and prosperous communities, I can represent the best interests of the residents of Springville.
