

Logan Millsap - Municipal Primary Election City Council Candidate 2023

I'm your candidate if you want careful planning and conscientious leadership to preserve Springville's small-town feel and traditions while it grows into a place where our posterity can afford to raise a family. I'm your candidate if you want safe streets for your kids. If you want Springville to be a fiscally responsible place where people know their neighbors and local businesses thrive, I'm your man.

I'm ready to go to work. In fact, I'm already doing the work! For years I've attended weekly city council meetings. I served on the Active Transportation Committee, creating a city-wide plan to make Springville a safer place for children to walk and ride, and on UTA's Community Advisory Committee, advocating for increased transit options in Utah County. I also serve on the PAR Board where we carefully allocate funds to improve our parks, connect residents to nature, and make Springville truly "Art City."

Springville is my hometown in every way: it is where I grew up as the oldest brother of nine siblings, where I fell in love with my wife, where I buried my brother and sister, and where I want to create a better world for the next generation.
