

John Harvey Wells - Municipal Primary Election City Council Candidate 2023

Springville City holds a special place in my heart because I was born and raised here and am raising my children here as well. I have seen many city councils in my lifetime, starting from when I served on the last General Planning Committee, and am impressed with how they have navigated many tough issues. I love how our city remains a place where people know their neighbors and the sense of community is strong.

I am a moderate who believes that Springville is an amazing city that needs no radical changes. My highest priorities are God, family, and community. Our city should be a haven for families, a place where our children can grow up in a safe and nurturing environment and have the opportunity to thrive, learn, and develop into responsible citizens.

I look forward to working hand in hand with every one of you in shaping the future of our beloved town. I am grateful for the community that helped raise me and I want to give back to this community and keep Springville a great place to raise a family, retire and enjoy life.
